

## MENDOZA UNFORGETTABLE EXPERIENCE

### Wine & Olive

We will leave in the morning from the hotel towards the central agricultural oasis to visit two wineries corresponding to the selected circuit, touring their facilities and enjoying the tasting of their wines. Mendoza is world famous for its wine production, however, it also has an important olive oil industry. This tour aims to show and teach, through great manufacturers of these products located in the main crop area of Mendoza: Luján de Cuyo y Maipú. We invite you to taste our national drink, discover the secrets of Malbec and get to know the most renowned wineries in our province. We will combine a family winery with an industrial winery, The guide will show different varieties from the region, their production processes, as well as the care, aging and fractionation of different types of wines. Extensive information about the wine production systems will also be included. At noon we will visit the third winery and participate in a lunch of steps paired with wines from the winery.

---

### Wine & Chocolate:

Discover the fabulous combination of aromas, textures and flavors that awaken this pairing in the most demanding palates. Guided tour with tasting of the GOLDEN RESERVE lines accompanied by artisanal chocolate. Duration: 1 hour and 30 minutes

---

### **Gronome with Lids:**

A new experience where visitors will participate in the different cultural tasks carried out in the vineyard, from winter pruning to harvest. The activity culminates on the terrace of the farm with typical Creole lids.

Includes: guided tour and tasting of ESPUMANTE BRUT NATURE in the vineyard and of the RESERVE and GOLDEN RESERVE lines. Duration: 3 hours.

---

### **Balloon Ride:**

The flights are currently made at sunset with prior reservation. Our airfield is located 45 minutes from downtown Mendoza. The flight time is approximately 45 minutes to 1 hour, where you can appreciate a magnificent view of the entire region flying over vineyards and olive groves. The direction of flight is determined by the prevailing wind that day, meaning there is no fixed route. At times we can fly a few meters high and then ascend to have a panoramic view that allows us to observe many kilometers around. The flight is so placid and serene that it does not give any type of discomfort or sensation of vertigo. Once we land, we make a toast with sparkling wine and give them a Flight Certificate while the balloon is stored and we return by land to the place of take-off. The activity from the beginning of the inflation of the balloon to the return to the field of flight is approximately 2/2:30 hours.
